

Name: Shubham Chemate
Subject: Code of Conduct

Batch: E-1
Roll No: 21118

Purpose:

Make students contemplate about ideal and safe professional environment and decide on making right decisions based on codes of conduct

Method:

Students can be asked to write down 5 most important codes of conduct that they feel that every computer engineer should follow. After evaluation by teachers / experts, the collection of codes can be converted into a handbook to be given to every student as a memoir to help them in their professional life.

Outcome:

Introspection and think about how to shape the professional environment. Also, when they carry back with them their own codes of conduct, they could feel bound to adhere to these ethics

Important Code of conduct:

1. Be respectful. Always respects every person and their opinions.
2. Integrity and honesty. Always be honest with your-work and with your co-workers.
3. Teamwork. Respect other's opinions, ask for help and also help others.
4. Take debates constructively and in positive way. Debates are unavoidable.
5. Set achievable targets and believe on your team and co-workers.

Conclusion:

I learned about various code of conduct in this assignment. Professional code of conduct helps in maintaining professional behaviour and making workplace likeable place. I'm sure this are going to help me in my professional career.
