Learn to express one's ideas and identify and relate to good virtues. Build writing skills, improve language and gain knowledge about how to write an impactful essay

### **Details of the Activity-**

- We were instructed to write an essay on any of the above-mentioned topics
- Our teacher had informed us about the guidelines before starting with the assignment
- Later on, we students were given some time to complete our essays. On completing we were supposed to present it in front of our class
- After presenting the essay we were told about the positive as well as negative points and we were well informed about places where we could improve our essay Learning Points-
- We learnt about how to write a good, concise and neat essay
- For writing an essay we had to first understand the topic and have a thorough knowledge about it, thus increasing our information about various topics
- We got to know various improving points as well

*The Essay on conflict management is attached. Please check attachment.*

### Conclusion-

In this assignment we learnt about how to write a good essay. We have done research on essay topic and learned about insights. I learned a lot from the topic of the essay i.e. importance of professional ideals. We improved and practiced writing and presentation skills and got to learn about general rules in writing the essay. Also we learned how to make essay simple and effective.

I think the things that we learned are going to help me a lot in my professional career in near future.
